Ms. Nancy Funabashi

Re: Septic System Re-Inspection
9 Ryerson Ave. – Block: 3806 Lot: 21
Oakland, NJ

Dear Ms. Funabashi:

Thank you for choosing **Classic Septic Inspections** to conduct a re-inspection of the septic system. Our representative was provided with the receipt and scope of work from RPS Excavating. Based on the provided receipts, the septic tank was pumped and the inlet baffle on the overflow was installed.

Based on today's findings, this septic system is now operating in an acceptable manner and therefore receives an inspection certification of SATISFACTORY.

Please feel free to call our office (201) 857-3011, if you have any further questions or concerns.

Sincerely,

Michael Acito

Disclaimer: Based on today's observations and the information provided by the owner(s) or their agent, CSI submits this sub-surface sewage disposal system inspection report. The inspection is based on the current condition of the onsite sewage disposal system. CSI makes no representation that the system was designed, installed or meets NJ state and local codes. CSI has not been retained to warrant, guarantee, or certify the proper functioning of the system for any period of time. Because of numerous factors (usage, soil type, installation, maintenance, etc.) which affect the proper operation of a sub-surface disposal system, as well as the inability of CSI to supervise or monitor the use and maintenance of the system, this report shall not be construed as a warranty by CSI that the system will function properly for any prospective buyer. CSI disclaims any warranty, either expressed or implied, arising from the inspection.
